There are 12 members in the community and working in the Xavier Jesuit School, three Jesuits: **Fr. Quyen Vu, sj** from Australia (the director of the school), **Sch. Liz kim and Miss Jungsoo from Korea, Mr. Jonathan and Mrs. Katherine from Hong Kong, Mr. Alexander from France and Mr. Frank from Ireland. It is really an international family, and all of them are highly qualified. Religious priest, scholastics, nuns male and female volunteers staying in one community, is really a unique and challenging experience for me. There is So much to learn from each other. I began teaching in the school, it is always been a joyful and exciting moments to be with the students. We had one week holidays as Cambodians remember their ancestors on the occasion of Pchumn Ben feast. I got opportunity to visit some Pagodas (Buddhist temple). On 14th of October Sisophon church celebrated the Pchumn Ben feast where all the family members the parishioners bring their food to the church and after the Eucharistic celebration they share their food together, which builds the community and I really enjoyed dancing the Cambodian dance where young and old male and female dance together. From 16th -17th of October we all the Jesuits of Northern community of Jesuit mission in Cambodia came together and shared our life and mission, it was very enriching and encouraging to listen to each other. On 18th of October we had the orientation day for 69 staff members of Xavier Jesuit School. I was glad to see the meticulous plan for the whole academic year. On 19th we began the new academic year. I am being appointed as the director of the CLC (community Learning centre). In the evening over 100 poor and weak students come to the school from rural areas and learn Khmer, English, Mathematics and Computer. At present the Jesuit

service in Cambodia (JSC), is more focusing on education in order to bring up the poor students so that they will have a bright future and they will make a difference in Cambodia. I am enjoying my

EAPI ATENEO, MANILA

After the massive loss of many lives, property and constructions from the destructive Typhon once again the life has come back in Philippines. The Government and NGOs are very active and quickly responded to rehabilitate the affected families. The Part of our Module, the course on “Ministry Inclusive of the Poor”, on October 4th, we had an opportunity to visit Payatas, north from Manila; a place where the garbage of Manila is dumped. This place is also known as “a Garbage Mountain” where more than a hundred thousands of Catholic brethren make their pathetic livelihood out of garbage. On 11th, the Sports Festival Day elevated our energy level high to share our light moments to each other in a competitive manner in our own respective groups. On that occasion neither physical weakness nor a heavy wind and rain could hinder the EAPI community members from enjoying the indoor and outdoor fun games. We celebrated the Indian cultural Mass on October 26th. In this celebration we included Patra & Tarwa Dalit way of liturgical celebration under the supervision of **Fr. Jojo M. Fung S.J.**, (A Malaysian Jesuit, 2004 Tertianship in Sitagarha) which was highly appreciated by all since the Liturgy was celebrated first time in unique way. Our course on “Pastoral Education and Renewal for Mission” will end on 29th of November then all will depart to their respective countries. Whereas, I will fly to Thailand, Chiang Mai to join Jesuit conference of Asia Pacific programme for a week then I will also join them to spend a few days with the Indigenous Mountain People.

PARIS, FRANCE

Both of us are keeping fine here, and we are doing well in our studies. We hope that all of you are also keeping fine in the province. Now, we are very much at home with the French culture and the language. Our community is one of the largest communities in Paris, consisting of 35 Jesuits from

all over the world. We are happy and are enriched to reside in such a universal and vibrant community. On October 12, all the scholastics renewed their vows; and three novices received their crucifix during a special adoration. This was a new thing for us that vows are renewed, and the novices receive their crucifix one day before their first vows (during adoration). The first vows of two French (EOF province) and one European Low Country (ELC) novices took place in the Chapel of Saint Jean de Dieu on October 13.

All the Indian Jesuits organized a creative and special Indian mass in our Jesuit University- 'Centre Sévres' on October 18. The hymns were sung and prayers were said in different Indian languages which was amusing for other students and faithful. After the mass, we served some of the Indian foods and dishes cooked by us. People from different tastes enjoyed and appreciated our Indian food. The same evening, Indian Jesuits had a special get-together and a faith sharing. The newcomers were welcomed and treated well in French style. We had cooked Indian food which we shared among ourselves. We were 24 Indian Jesuits from different provinces. From 27 Oct.- Nov. 4, We had 'Vacances de la Toussaint'. In this vacation, we did not go out like others. We stayed in Paris and we visited few historical and famous places of Paris.
